Manifesto
Jamat-e-Islami Pakistan

إِنَّ اللَّهَ يَأْمُرُكُمْ أَنْ تُؤَدُّوا الْأَمَانَاتِ إِلَىٰ أَهْلِهَا وَإِذَا حَكَمْتُمْ بَيْنَ
النَّاسِ أَنْ تَحْكُمُوا بِالْعَدْلِ ۚ إِنَّ اللَّهَ نِعِمَّا يَعِظُكُمْ بِهِ ۚ إِنَّ اللَّهَ
كَانَ سَمِيعًا بَصِيرًا (النساء: ٥٨)

Indeed, Allah commands you to render trusts to whom they are due and when you judge between people to judge with justice. Excellent is that which Allah instructs you. Indeed, Allah is ever Hearing and Seeing.

الَّذِينَ إِنْ مَكَّنَّاهُمْ فِي الْأَرْضِ أَقَامُوا الصَّلَاةَ وَآتَوُا الزَّكَاةَ وَ
أَمَرُوا بِالْمَعْرُوفِ وَنَهَوْا عَنِ الْمُنْكَرِ ۗ وَلِلَّهِ عَاقِبَةُ الْأُمُورِ
(الحج: ٢٢)

[And they are] those who, if We give them authority in the land, establish prayer and give zakah and enjoin what is right and forbid what is wrong. And to Allah belongs the outcome of [all] matters.

- We will free the country from USA's slavery and restore Pakistan's sovereignty.

PREFACE

Pakistan is passing through the worst phase of its history. Peace, a fundamental need of a society, is elusive; crimes, murders and kidnappings are rampant. Plunder is routine, especially in Karachi, Baluchistan, tribal areas, and Khyber Pakhtunkhwa. Government is evidently both helpless and insensitive. Economy is in a tailspin. People are grueling under high levels of unemployment and ever-rising inflation. Power blackouts, rising prices of gasoline, and short supplies of natural gas have made life miserable. The rulers, their coalition partners, and the bureaucracy are all robbing national wealth. Each day, a new scandal comes to fore and there is no accountability. Bribery is growing without check. PIA, Pakistan Railways, and Pakistan Steel Mills are piling up huge losses. Banks too are being plundered.

Lewdness and immodesty are being promoted in an organized manner to deprave the youth; and there is no check on it. Societal violence is spreading and, ironically, law-enforcement agencies have become a threat to the lives and properties of people. In addition to this, the specter of terrorism is targeting mosques, places of worship, shrines, markets, roads and neighborhoods. Our security organizations and their installments are its victim too. No place or individual is safe. The nation is in a state of shock.

Our country has fallen into the clutches of American interests in the region. Its espionage apparatus is spread all over the country and we have been obliged to yield to its commands like a slave. Our rulers have turned the army on its own people by asserting ownership of a foreign war. America and its cronies have eroded Pakistan's sovereignty and are freely carrying out their activities inside the country. Drone attacks have intensified. On our protests, instead of offering an apology, Washington bluntly declared that attacks would continue. And tauntingly reminds us that we must tolerate all this since we receive dollars from them. It is a condition that:

Whole of my body is full of injuries.

Where should I apply the balm and where not?

The nation finds itself in a quagmire from which there seems to be no escape. History testifies that the rise and the fall of nations depends on their leadership. If leadership is sincere, honest, competent, selfless, and ambitious, nations rise; they, however, fall if leadership is opportunistic, self-seeking, dependent, and power seeking. When leadership lacks integrity, sincerity, and respect for law, even the best laws and constitutions fail to deliver. But when leadership is sincere and determined, it not only provides a pro-people government and dispenses justice, but it also leads people to prosperity.

Elections are the primary and important mechanism that provides leadership. A vote is a trust and it is the sole opportunity available to people to select their representatives. It must be understood that if voters do not exercise their right judiciously, and petty-interests, community-bonds or any other pressure influence their voting, then they cannot absolve themselves from the responsibility of the havoc wrought about by phony leadership.

Voters are fully responsible for bringing leaders – good or bad – to power.

If voters, under the influence of their petty interests, communal feelings, and regional and linguistic parochialism are unable to distinguish between good and bad leadership, then they are destined to have a leadership that they are forced to endure now and consequently there will not be an iota of a change in their condition. If voters, in the interest of the country (of which they are the most important stakeholders) elect sincere and upright individuals, only then will they have good leadership.

In our country, democracy and elections have degenerated into pursuit of power and personal interests. Whereas, elections are a means of nation building, only those can achieve this goal who are not in pursuit of any worldly gain for themselves. Without exception, all the prophets of Allah in carrying out their mission told their people:

“I do not ask of you any reward from thee; my reward is with Allah.”

Unless such selfless leadership is available to us, we will not be able to solve any of our problems.

With elections just around the corner, you will be tested in what kind of leadership you elect. A crowd is in the field pleading for your votes. They have catchy slogans and make tall claims. Most of them are those to whom Al-Quran says: “why do you say what you do not do?”(61:3).

Jamaat-e-Islami is not merely a political, religious or reformist party.

It is an ideological party which believes in complete, all-embracing and comprehensive Islamic way of life and wishes to implement it in every sphere of life. Jamaat understands that decadence in the world is due to its indifference towards Allah's commandments and belief in the Day of Judgment, and avoiding the guidance provided by the Prophet (PBUH). Whenever there is a problem in any discipline of life, this nonchalant behavior is the root cause. No reform is possible without unconditional submission to Allah, a concern for accountability in the Hereafter, and the obedience to His prophets. Any effort to establish a just society on the basis of some materialist ideology would only result in a new form of tyranny.

Manifesto

Jamaat-e-Islami Pakistan

- A vote is a trust and it provides an opportunity to the people to select their representatives.
- If voters, in the interest of the country (of which they are the most important stakeholders) elect sincere and upright individuals, only then we will have good leadership.

Manifesto

Jamaat-e-Islami Pakistan

- Jamaat-e-Islami professes a concept of life which is all-embracing and aims at the welfare of the humankind.
- To achieve its objectives, Jamaat-e-Islami intends to bring changes in the political system peacefully through constitutional and democratic means.

Jamaat-e-Islami professes a concept of life which is all-embracing and aims at the welfare of the humankind. It, however, believes that until we build our country into a model Islamic state, unless we ourselves follow the system we profess as true and just and show to the world the results of implementing this system in our country, we will not be able to convince others of its strength and effectiveness.

We understand that there is no dearth of those in the country who believe in Allah, His Prophets, and the Day of Judgment. But the anomaly is that the faith and the system in which the majority of people of Pakistan believe in are not in force in the country. For this very reason, our country, despite being a predominantly Muslim state, has neither been able to benefit from the blessings of Islam nor has it been able to become a model of practicality and truthfulness of Islam in the comity of nations.

Jamaat-e-Islami is pursuing all possible means to address this situation. Propagation of Islam, ridding the society of fallacies of traditions both old and new, approaching intelligentsia on how Islam provides solutions to our problems, and endeavor to reform the moral values of the society are the components of the program Jamaat-e-Islami is working on since its creation seventy years ago. In addition to this, the circumstances also demand restructuring of government. Especially in the modern era when every sphere of life falls within the ambit of government, and it exercises authority in every walk of life.

Without reforming the system of government, neither reformation of individuals is possible nor can justice prevail in the society.

A corrupt government is not only an impediment to reforms, but it also becomes the catalyst for all evil forces in the society.

No matter how fervently the supporters of an Islamic system strive through apolitical means, they cannot achieve their objectives when the reins of the government are in the hands of those who are exploiting the country's resources, controlling the force of the law, and directing the state machinery to drive the country towards a capitalist or socialist order; an un-Islamic way of life.

To achieve its objectives, Jamaat-e-Islami intends to bring changes in the political system peacefully through constitutional and democratic means. The goal before the Jamaat is to steer the country into a state that strictly adheres to the injunctions of the Quran and the Sunnah and follows the governance system of the rightly guided Caliphs (al-Khulafa'u r-Rashidin) in which the principles of Islam are fully enforced.

Workers of Jamaat-e-Islami are also approaching you for your vote. Therefore, to refresh your memory, and for those who are not aware of our program, we wish to bring to your knowledge the following merits of Jamaat-e-Islami:

Jamaat-e-Islami has never been alone at the helm of country's affairs, but it has always served the country in every walk of life and its leadership and its workers have relentlessly been serving its people. Whenever and to whichever extent it got the opportunity to share power, its conduct and performance have been exemplary. In 2002, Jamaat shared power in the province of Khyber Pakhtunkhwa as a junior partner. It held the mayor-ship of Karachi thrice. People are witness to the superior performance of its ministers. Even its staunch opponents admit excellent performance of Jamaat in mayor-ship of Karachi.

The heart of the matter is that during the periods Jamaat-e-Islami was in power, no one, even its sworn opponents, could accuse its ministers, mayors, or parliamentarians of corruption or misconduct. None of its elected members ever got any personal gains.

In the same spirit, Al-Khidmat foundation is running Pakistan's largest public welfare network providing education and healthcare facilities to the poor and needy throughout the country.

Whereas we are thankful to Allah for our contributions to the welfare of the society, we appeal to the nation to make choices on the bases of performance of candidates while casting their votes, remaining mindful of the fact that they are answerable to Allah for all their decisions.

Manifesto of Jamaat-e-Islami is in your hands. It will help you acquaint yourselves with the program of Jamaat and understand the positions it takes on national issues.

Jamaat-e-Islami keeps promises it makes. It has the leadership that can implement its manifesto. It is capable of pulling the country out of the quagmire it presently is in. Its leadership and workers are un-wavering, competent, sincere and honest.

Today we need a leadership that can free the nation from the clutches of foreign dominance and restore its sovereignty, make the country self-sufficient, maintain law and order, and pull the country out of financial crises.

Such is the program of Jamaat-e-Islami.

The performance of those currently in politics is no secret to you; to test them again would risk plunging the country into chaos.

The heart's freedom is knightly; its slavery is death.

It is for thee to decide – to be a king or a slave.

Manifesto

Jamaat-e-Islami Pakistan

- Jamaat-e-Islami yields an excellent record of selfless public service.
- Jamaat-e-Islami is running Pakistan's largest public welfare network providing education and healthcare facilities to the poor and needy.

Manifesto

Jamaat-e-Islami Pakistan

- Our ideal is to make Pakistan an Islamic welfare state.
- Fair distribution of wealth.
- Class based system to be abolished

THE ISLAMIC STATE AT MADINA—AN IDEAL TO STRIVE FOR

The Islamic state at Madina is our ideal where a welfare system was established in consonance with the teachings of the Quran and Sunnah. The salient features of the blessed state included:

A fair distribution of wealth and capital was ensured. Flow of wealth was directed from the rich towards the poor through the system of Zakaat and alms giving. Interest, hoarding, profiteering, and the means of concentration of wealth were prohibited. These measures resulted in circulation of wealth throughout the society and brought prosperity to the people.

Measures were taken to ensure that people had access to food, clothing, healthcare, and education. The state provided stipends even to infants.

Everyone was obliged to respect the law. The distinction between the rulers and the ruled was dissolved. People had easy access to their caliph, amaals, and ameers.

People had equal opportunities in business, trade, industry, agriculture and other professions. Means of communication were developed. Regular lines of travel were made secure. Unrest, violence, and pillage were stamped out.

Money collected through Zakaat, charity and other means was spent on public welfare. Within a few years, the society became so prosperous that it was hard to find a deserving recipient of charity.

The state not only took responsibility of each individual's livelihood in his life time, it also took care of his remaining obligations after his death.

Not only for human beings, there were clear obligations towards animals and plants too. Chopping down of trees was discouraged by the state. Caliph Umar once said: "If a dog dies of thirst at the banks of the Euphrates, how shall I answer for that to Allah."

SOVEREIGN, INDEPENDENT, AND DIGNIFIED PAKISTAN

With a radical shift in foreign, internal, and economic policies of the country, we will strive to attain a sovereign, independent, and dignified presence for the country in the comity of nations and will make it rise to the leadership of Islamic World as a modern, developed state.

We will take the following steps to achieve these goals:

- Dependence on IMF assistance and external finance will be phased out by efficient use of internal resources and with the help of expatriate Pakistanis.
- All international agreements will be entered into with the approval of the National Parliament.
- Relations with other countries will be on the basis of the principles of equality and justice, co-existence and non-interference.
- Pakistan will play a vital role in uniting the Muslim Ummah. Efforts will be made to unite Muslim countries into a common parliament, defense, and market. The Islamic institutions world-over, including the Organization of Islamic Conference (OIC), will be galvanized in a concrete way towards a shared sense of defending the sanctity of the Holy Quran, the Holy Prophet (PBUH) and other symbols of Islam.
- Relations with China will be strengthened and avenues of bilateral cooperation in all walks of life will be discovered.
- All disputes with India will be resolved through a purposeful, comprehensive, and result-oriented dialogue. Not only the international institutions will be approached for conflict resolution, efforts will be made to win public opinion internationally.
- Liberation of Kashmir from Indian occupation will be the cornerstone of our foreign policy. We hold in the highest esteem the seven-decade-long freedom movement in Kashmir. It is our firm faith that the eternal sacrifices made for the Kashmir cause will not go in vain. We believe that the only solution to the Kashmir dispute lies in holding plebiscite in the light of the UN resolutions. To achieve this goal, we consider it our foremost duty to extend full cooperation political, moral and diplomatic to the oppressed Muslims of Kashmir.

LOCAL GOVERNMENTS

The institution of local bodies plays an important role in development and progress of any country. Unfortunately, this institution has always been exploited by military dictators for their personal gains. On the other hand, political forces have always been oblivious of their importance. In our view, the system of local bodies has been unsuccessful in the country because other than an ambiguous paragraph, the constitution of Pakistan does not provide a definitive framework for this institution. Keeping in view our past experiences and the requirements of all the federating units, we will make necessary amendments in the law to make this system work. The law will define the procedure for electing local leadership, as well as the power and responsibilities of the elected individuals. In this regard, all political forces will be taken on board. We will strive to introduce the system of local bodies as the third layer of government, along with the federal and the provincial governments.
